Cultural Safety In Aotearoa New Zealand-Dianne Wepa 2015-05-18 This second edition presents a range of theoretical and practice-based perspectives adopted by experienced educators active in cultural safety education.

Cultural Safety In Aotearoa New Zealand-Paul Spoonley 2015 In this second edition of Cultural Safety in Aotearoa New Zealand, editor Dianne Wepa presents a range of theoretical and practice-based perspectives adopted by experienced educators who are active in cultural safety education. Thoroughly revised to incorporate the latest methods and research, this edition reflects updates in government policies and nursing practices, and features new chapters on ethical considerations when working cross-culturally, as well as the legislative requirements of the Nursing Council of New Zealand. Each chapter includes key terms and concepts, practice examples providing content from healthcare workers' everyday experiences, reflective questions to encourage the assimilation of ideas into practice, and references to allow further exploration of the issues discussed. Cultural Safety in Aotearoa New Zealand will equip students, tutors, managers, policy analysts and others involved in the delivery of healthcare with the tools to acknowledge the importance of cultural difference in achieving health and well-being in diverse communities.

Yatdjuligin- Odette Best 2021-07-31 Yatdjuligin: Aboriginal and Torres Strait Islander Nursing and Midwifery Care introduces students to the fundamentals of health care of Indigenous Australians, encompassing the perspectives of both the client and the health practitioner. Written for all nurses and midwives, this book addresses the relationship between Aboriginal and Torres Strait Islander cultures and mainstream health services and introduces readers to practice and research in a variety of healthcare contexts. This new edition has been fully updated to reflect current research and documentation, with an emphasis on cultural safety. Three new chapters cover Torres Strait Islander health and wellbeing, social and emotional wellbeing in mainstream mental health services and quantitative research. Chapter content is complemented by case study scenarios, author reflections and reflection questions. These features illustrate historical and contemporary challenges, encourage students to reflect on their own attitudes and values, and provide strategies to deliver quality, person-centred health care.
Early Childhood Education in Aotearoa New Zealand: History, Pedagogy, and Liberation-J. Ritchie 2013-12-09 Taking as a starting point the work of Aotearoa New Zealand to provide an education system that includes curriculum, pedagogy, and language from indigenous Maori culture, this book investigates the ensuing practices, policies, and dilemmas that have arisen and provides a wealth of data on how truly culturally inclusive education might look.

Health Care and Indigenous Australians-Kerry Taylor 2010-01-01 Health Care and Indigenous Australians: Cultural safety in practice uses a cultural safety approach for undergraduate health students or professionals wanting to improve their practice in relation to Indigenous Australian clients. With fourteen chapters that include activities, critical thinking questions, poems, ‘making it local’ activities, and case scenarios, readers should find that the material challenges them to think in new ways about Indigenous health and about their practice more generally.

Precarity-Shioh Groot 2017-09-01 Leading UK economist Guy Standing has referred to the precariat as a class-in-the-making. The Precariat are our fellow citizens — be they poor, elderly, disabled, homeless, estranged from their cultural communities, refugees, engaged in casual work — who lead lives of uncertainty, dependency, powerlessness, perilousness and insufficiently. They are the outcome of the gradual dismantling of the welfare state and the withering of union representation. They are also the victims of the changing nature of work. This important book moves beyond the world of labour to identify and illustrate other forms of precarity in New Zealand, including the lack of opportunities for cultural expression and the struggle to be safe. It focuses on New Zealand’s emerging class, not to further vilify it but rather to place its members’ lived experience in plain sight. As the editors say, ‘It is time that all New Zealanders understood the reality of what many of our citizens endure in the struggle to make ends meet and live dignified lives.’

Ethics and Law for Australian Nurses-Kim Atkins 2014-08-04 The second edition of Ethics and Law for Australian Nurses is comprehensive in approach and allows students to understand the relationship between the legal and ethical frameworks of nursing practice. With an Australian focus, the book recognises the diversity of nursing practices and practice settings while emphasising their uniform aim of supporting and promoting health and well-being across the lifespan. Thoroughly revised to incorporate the latest methods and research, this edition features updates to legislation and new chapters on end-of-life decisions and Indigenous health care. It introduces readers to the ‘Giving Voice to Values’ approach to ethics and makes extensive use of case studies, legal case extracts, practical examples and reflective questions to illustrate key concepts throughout. Ethics and Law for Australian Nurses provides an innovative and intuitive skills-based approach to nursing ethics and the legal context of nursing practice.

Psychiatric & Mental Health Nursing - E-Book-Ruth Elder 2011-06-02 The new edition of Psychiatric and Mental Health Nursing focuses on practice in mental health and psychiatric care integrating theory and the realities of practice. Mental wellness is featured as a concept, and the consideration of a range of psychosocial factors helps students contextualise mental illness and psychiatric disorders. The holistic approach helps the student and the beginning practitioner understand the complex causation of mental illness, its diagnosis, effective interventions and treatments, and the client’s experience of mental illness.

Leveraging Culture to Address Health Inequalities-Institute of Medicine 2013-12-30 Leveraging Culture to Address Health Inequalities: Examples from Native Communities is the summary of a workshop convened in November 2012 by the Roundtable on the Promotion of Health Equity and the Elimination of Health Disparities of the Institute of Medicine. The workshop brought together more than 100 health care providers, policy makers, program administrators, researchers, and Native advocates to discuss the sizable health inequities affecting Native American, Alaska Native, First Nation, and Pacific Islander populations and the potential role of culture in helping to reduce those inequities. This report summarizes the presentations and discussion of the workshop and includes case studies that examine programs aimed at diabetes prevention and management and cancer prevention and treatment programs. In Native American tradition, the medicine wheel encompasses four different components of health: physical, emotional, mental, and spiritual. Health and well-being require balance within and among all four components. Thus, whether someone remains healthy depends as much on what happens around that person as on what happens within. Leveraging Culture to Address Health Inequalities addresses the broad role of culture in contributing to and ameliorating health inequities.

Cultural Diversity in Health & Illness - Rachel E. Spector 1996 Written for all health care providers, this text promotes awareness of the dimensions and complexities involved in caring for people from culturally diverse backgrounds. The author through discussions of her own experiences, shows how cultural heritage can affect delivery and acceptance of health care and how professionals, when interacting with their clients, need to be aware of these issues in order to deliver safe and professional care. Traditional and alternative health care beliefs and practices from Asian American, African American, Hispanic, and American Indian perspectives are represented.

Recalling Aotearoa - Augie Fleras 1999 Examines why cultural and national identity have changed dramatically in New Zealand in the latter part of the twentieth century, with the emergence of policies on biculturalism, the development of new immigrant communities, and the increased focus on the Treaty of Waitangi and the settlement of Treaty claims. Covers: cultural politics and the debate on indigeneity and sovereignty; the role of the Fākehā in postcolonial society; challenges and changes to Māori policy; immigration, national identity and race relations; the politics of multiculturalism, biculturalism, and bi-nationalism; new choices and challenges for Tagata Pasifika.

The Relationship is the Project - Jade Lillie 2020-02-03 edited by Jade Lillie, with Kate Larsen, Cara Kirkwood and Jax Jacki Brown A brilliant new ‘right now’ resource that aims to assist emerging practitioners, artists and cultural workers better engage with community-based projects. The breadth of the advice shared in this non-academic, practitioner-led book includes insights into the ethics and logistics of working in community contexts - from collaboration and leadership to platforming and duty of care. Featuring 20 curated chapters from thought-leaders across the arts, cultural and community sectors, this unique publication is a must-have resource for community-engaged practice. Contributors include Genieve Grieves about working in First Nations contexts; Caroline Bowditch on access and disability; Dianne Jones, Odette Kelada and Lilly Brown on racial literacy; Ruth De Souza and Robyn Higgins on cultural safety in the arts; as well as Esther Anatolitis, Adolfo Aranjuez, Paschal Berry, Lenine Bourke, Tania Cañas, Rosie Dennis, Alia Gabres, Eleanor Jackson, Samuel Kanaan-Oringo, Fotis Kapetopoulos, Kate Larsen, Lia Pa’apa’a, Anna Reece, Daniel Santangeli, and Jade Lillie herself.

Acute Care Nursing - Julia Gilbert 2018-07-31 Acute Care Nursing provides an accessible and practical overview of the role of the nurse in acute medical and surgical settings in the Australian and New Zealand context. Linking closely with the Australian 'Registered nurse standards for practice' and the New Zealand Competencies for Registered Nurses, this text equips students with foundational knowledge of the pathophysiology, treatment and legal aspects associated with common acute conditions. Through the person-centred, collaborative care approach, students will also learn effective communication, decision-making and cultural competency skills that are essential for nurses in any practice context. Each chapter is enriched with pedagogical features designed to solidify understanding and promote critical thinking, including case studies, reflections, key terms, review questions, research topics and further readings. Offering students a relevant and contemporary understanding of the acute care context, Acute Care Nursing is an essential companion that can be taken from the classroom into practice.

Maori Peoples of New Zealand - Neuseeland Ministry for Culture and Heritage 2006-01-01 Who are the Maori of New Zealand? How did they get here and how did they settle the country? What are the main tribal groups in New Zealand, and where are they based? The first publication to come out of the online Te Ara Encyclopedia of New Zealand project tells the story of the tangata whenua of Aotearoa, from their journeys across the vast Pacific Ocean to the histories of all the major iwi, including the contemporary issues they face today. No other book brings together in one place all these tribal histories. Based on the latest research and generously illustrated in full colour with superb mapping and photographs, this rich resource is an essential part of ‘our’ nation’s story and fills an important gap in the history of New Zealand.

International Practice Development in Nursing and Healthcare-Kim Manley 2013-05-08 International Practice Development in Nursing builds on Practice Development in Nursing, edited by the same editors and is the first book to develop a truly international practice development perspective. Practice development is a key concept in developing effective nursing care which is firmly embedded in health service modernisation agendas, clinical governance strategies, team and cultural developments and in quality improvements that directly impact on patient care in the UK and internationally. Practice development acknowledges the interplay between the development of knowledge and skills, enablement strategies, facilitation and a systematic, rigorous and continuous processes of emancipatory change in order to achieve evidence-based, person-centred care. International Practice Development in Nursing is an essential resource for all practice developers and for nurses with a remit for facilitating innovation and change in practice.

Joints and Connective Tissues-Kerryn Phelps 2012-10-30 Joints and Connective Tissues - General Practice: The Integrative Approach Series. In order to diagnose and manage the patient presenting with musculoskeletal symptoms, it is important to distinguish whether the pathology is arising primarily in the so-called hard tissues (such as bone) or the soft tissues (such as cartilage, disc, synovium, capsule, muscle, tendon, tendon sheath). It is also important to distinguish between the two most common causes of musculoskeletal symptoms, namely inflammatory and degenerative.

The Unjust Society - Harold Cardinal 1999-03-01 "With a new introduction by the author" - Cover.

Routledge International Handbook of Nurse Education - Sue Dyson 2019-12-20 While vast numbers of nurses across the globe contribute in all areas of healthcare delivery from primary care to acute and long-term care in community settings, there are significant differences in how they are educated, as well as the precise nature of their practice. This comprehensive handbook provides a research-informed and international perspective on the critical issues in contemporary nurse education. As an applied discipline, nursing is implemented differently depending on the social, political and cultural climate in any given context. These factors impact on education, as much as on practice, and are reflected in debates around the value of accredited programmes, and on-the-job training, apprenticeship, undergraduate and postgraduate pathways into nursing. Engaging with these debates amongst others, the authors collected here discuss how, through careful design and delivery of nursing curricula, nurses can be prepared to understand complex care processes, complex healthcare technologies, complex patient needs and responses to therapeutic interventions, and complex organizations. The book discusses historical perspectives on how nurses should be educated; contemporary issues facing educators; teaching and learning strategies; the politics of nurse education; education for advanced nursing practice; global approaches; and educating for the future. Bringing together leading authorities from across the world to reflect on past, present and future approaches to nurse education and nursing pedagogy, this handbook provides a cutting-edge overview for all educators, researchers and policy-makers concerned with nurse education.

Crafting Aotearoa - Damian Skinner 2020-01-18 A LANDMARK PUBLICATION THAT TAKES ANOTHER LOOK AT CRAFT AND ITS BROADER CULTURAL ROLE. A major new history of craft that spans three centuries of making and thinking in Aotearoa New Zealand and the wider Moana (Pacific). Paying attention to Pākehā, Māori, and island nations of the wider Moana, and old and new migrant makers and their works, this book is a history of craft understood as an idea that shifts and changes over time. At the heart of this book lie the relationships between Pākehā, Māori and wider Moana artistic practices that, at different times and for different reasons, have been described by the term craft. It tells the previously untold story of craft in Aotearoa New Zealand, so that the connections, as well as the differences and tensions, can be identified and explored. This book proposes a new idea of craft one that acknowledges Pākehā, Māori and wider Moana histories of making, as well as diverse community perspectives towards objects and their uses and meanings.
Immigrant and Refugee Youth and Families - Mo Yee Lee 2021-05-19

The United States is known as a nation of immigrants. Over the years the composition of immigrants has significantly changed. From receiving immigrants from primarily Europe, the United States is now home to people from countries around the globe. One of the common challenges encountered by immigrant and refugee families and youth is to successfully resettle and integrate into the host country that is culturally different from their country of origin. Depending on the context of migration, families and youth oftentimes face additional challenges ranging from potential trauma prior to immigration, language, employment, education, healthcare accessibility, integration, discrimination, etc. This book focuses on different issues experienced by immigrant and refugee families and youth as well as programs implemented to serve these populations. These issues pertain to the individual at a personal level (attachment, trauma, bi-cultural self-efficacy, behavioral problems, and mental health), family (parenting, work-family conflict, problems such as domestic violence), community (risk factors such as racial discrimination and protective factors such as social capital) and policy (immigration policy and enforcement). Part I of the book focuses on immigrant and refugee families and Part II focuses on immigrant and refugee youth. By increasing our awareness of issues pertinent to immigrant and refugee families and youth, we can better provide culturally respectful and sensitive services and policy to this population at a time when they are navigating between their host culture and home culture in addition to dealing with challenges encountered in resettlement. The book is a significant new contribution to migration studies and social justice, and will be a great resource for academics, researchers, and advanced students of social work, public policy, law and sociology. The chapters in this book were originally published in the Journal of Ethnic & Cultural Diversity in Social Work.

Decolonizing Methodologies - Linda Tuhiwai Smith 2016-03-15

'A landmark in the process of decolonizing imperial Western knowledge.' Walter Mignolo, Duke University

To the colonized, the term ‘research’ is conflated with European colonialism; the ways in which academic research has been implicated in the throes of imperialism remains a painful memory. This essential volume explores intersections of imperialism and research - specifically, the ways in which academic research is embedded in disciplines of knowledge and tradition as ‘regimes of truth.’ Concepts such as ‘discovery’ and ‘claiming’ are discussed and an argument presented that the decolonization of research methods will help to reclaim control over indigenous ways of knowing and being. Now in its eagerly awaited second edition, this bestselling book has been substantially revised, with new case-studies and examples and important additions on new indigenous literature, the role of research in indigenous struggles for social justice, which brings this essential volume urgently up-to-date.
