David Hume's Political Economy
Hume's Political Economy reflects his own personal understanding of the basic nature of economics with that of the Austrian School, as found in the work of Mises as an "outstanding work in the philosophy of science, striving as it does to explore the interconnection between economic science and the basic nature of economics." The volume is very specific: to stimulate a discussion of the epistemology and methodology of economics that works at the level of detail of existing "best practice" in the field. The contributors have dedicated their contributions to stimulate productive conversation between philosophers and economists on topics in the methodology of economics.
